The satisfaction levels of students with reference to individual faculty member's delivery of course curriculum and other aspects are excellent. Our college curriculum and syllabus are in relation to the changing market orientation. For this the students are mostly satisfied with the course content and admit that the course content delivery is rather pertinent to job market.

The Questionnaire was diversified in nature like punctuality of the lecturer to the class, the understanding of the teaching, whether the communication of the teacher is clear or not. All the students are completely satisfied and no action is taken. But the institute further strives hard to provide excellent learning experience.
